## DUAL BATTERY PV CHARGE CONTROLLER

download manual

Il WRM15 dualB è un regolatore di carica MPPT per applicazioni fotovoltaiche in grado di gestire automaticamente la carica di due batterie, una primaria e una secondaria, con collegamento Bluetooth per controllo tramite APP su dispositivi mobili Android e iOS.

WRM15 dualB is a MPPT charge controller for PV application with automatic charge management for two batteries, primary and secondary, with Bluetooth connection for control through APP on Android and iOS mobile devices.

WRM15 dualB est un contrôleur de charge MPPT pour applications photovoltaïques doté d'une fonction automatique de gestion de charge de deux batteries, une principale et une secondaire, avec une connexion Bluetooth pour le contrôle via les APP sur les systèmes Android et iOS des appareils portables.

- 15A PV charge controller
- Fast MPPT (Maximum Power Point Tracker) tecnologia
- Dual battery with priority management (primary and secondary)
- 12V/24V battery voltage auto detection
- Suitable for GEL, sealed, lead acid and lithium-ion batteries
- Bluetooth remote control with dedicated Android/iOS APP
- RS485 interface for remote LCD control WBUS
- USB port for smartphone, tablet and battery bank charge
